Town Manager's Report
September 5, 2018

The Airport Advisory Committee met with Gale Associates to continue working on the Airport Master Plan Update (AMPU). The process and conversations continue to be very productive as we near the end of the project. There is also an opportunity for funding of airport projects with 100% FAA contribution.

Waste Management's hearing on the public benefit determination of the proposed expansion was well attended last Thursday. As we learn more about the process and timing, we will be sure to publicize it.

Oosoola Days was another two-day success that was well attended at both locations. Attendance appeared to be up at the airport, while down at the park. We had a diverse group of vendors and activities and received many positive comments as feedback. Negative feedback has been very limited. As usual, we will be holding a wrap-up meeting in a couple weeks. Thank you to all of our supporters, volunteers, etc.

We have received an invitation to the County's Spirit of America recognition event on October, 17, 2018, at 6:00 p.m. I have sent regrets; it conflicts with a regularly scheduled selectmen meeting. I have also requested consideration of changing the date next year.

I finalized our FEMA projects from the October windstorm. We are expecting a total reimbursement of expenses in the approximate amount of \$34,000.
