

**PRIDE OF NORRIDGEWOCK VFD** — Thanks to a lot of volunteer hours, the Norridgewock Fire Department has just about completed restoration of this 1935 Maxim pumper. According to fireman Doug Farrin, legend has it that this engine was purchased with a carload of corn from the Jewett Corn Factory. The painting was done by Terry Corson, pin striping by Gary Caron of Greenville, the oak running board was refinished by Dory Savard and a ladder was donated by Fred Gooch. (Betty Huard photo)
